

SYNTHETIC LUBRICANTS

PE Systems LLC
123 S. Wall St.
Spokane WA 99201-3814

To Whom IT May Concern:

As we have now been working with PE Systems since March 2007, we certainly are pleased with the services the firm has provided us.

As I have discussed with your associates it has been great to have PE System watching our back through the maze of pricing and all the codes involved n the pricing of our hundreds of thousands of annual credit card transactions.

We most certainly appreciate your suggestions over this time with regard to downgraded transactions and how we can minimize this expense as well as how you have pointed out where our pricing with our merchant services provider was out of line and we were able to get it reduced.

Thanks again for all your help in making AMSOIL INC. more profitable by controlling and, in fact, reducing our credit card expenses.

Sincerely yours,

VP Finance
