

To Whom It May Concern:

We have been working with PE Systems since this time last year and we are very pleased with their services. The ability to have professionals review our existing credit card processing structure, at no cost to Beronio Lumber, has been very worthwhile.

Each of the PE Systems representatives with whom we have had contact has conducted themselves in a friendly and professional manner. We appreciate their expertise and their commitment to the best interests of Beronio Lumber. We also appreciate the respect they have shown toward our existing business relationships.

We are delighted to know that our account manager is constantly reviewing our account to ensure that any situation that may cause potential overcharges is handled quickly and efficiently.

We strongly recommend the professionals at PE Systems and the services which they offer.
