

To Whom It May Concern,

When PE Systems approached Colby College regarding their savings program, we could see right away that this would be a good decision. In the higher education industry, we are constantly being asked to do more with less, and it made sense to look into the fees that we were paying to accept credit cards. We signed with PE Systems and they promised to come back to us within a few weeks with the results of their findings.

When they presented the results of their analysis, we were very pleased that we had made the decision to partner with them. They found savings for us, but even better than that they educated us as to changes in our processes to maintain these savings. The credit card industry is extremely convoluted and it just doesn't make sense for us to spend the time trying to decipher the constantly changing rules and regulations, while at the same time paying higher fees. PE Systems has been the solution for us. They do the work, and we know that we are no longer losing money when it comes to our credit card processing fees.

I highly recommend this service to anyone who wishes to ensure that they are not overspending on their credit card processing.

Sincerely,

Controller
