

To Whom It May Concern,

This letter is in regards to our experiences with PE Systems Corporation in Spokane, WA. When we were first contacted by PE Systems regarding the fees we were paying to accept credit cards, we were interested in the idea, but because of internal circumstances we decided to wait a while before moving forward with them. The PE Systems professional was politely persistent in following up with us, and sticking with us while we decided what we should do. Although it took us quite a while to decide, in the end we agreed to contract with PE Systems.

They successfully uncovered the issues that were causing us to lose money. Their savings process is not complicated and required minimal work on our part. Their operations team is just as great to work with as the sales team, and we appreciate how quickly and efficiently they get the job done. There is honestly nothing to lose and everything to gain by partnering with PE Systems.

I highly recommend the PE Systems team and their service to anyone that is looking to save money on their credit card processing fees.

Sincerely,

Chief Financial Officer
