To Whom It May Concern:

I am happy to write this letter on behalf of the team at PE Systems and the consulting services that they offer. When we were first introduced to their proposal and learned that they specialized solely in reducing merchant's credit card processing fees, we very quickly decided to partner with them. We firmly believe in employing initiatives that have the potential of contributing to our business goals and values and we looked forward to the potential outcome and additional revenue that they could provide.

The results did not disappoint. We have been very pleased with successful partnership that we have had so far with PE Systems. The professionals that we have worked with have been extremely skilled in the area of credit card processing and were able to capture savings for us quickly and efficiently. We have also been very satisfied with the continued support and education that we receive from our account manager regarding our fees and appreciate our shared goal of making sure that our organization does not overpay for our credit card processing.

I highly recommend this service to any company that is interested in reducing the fees that they pay to accept credit and debit cards.

Sincerely,

Financial Manager

MCm
