To Whom It May Concern:

I am writing this letter in regard to the services offered by PE Systems Corporation in Spokane, WA. Hillsborough Community College was approached by the professionals at PE Systems regarding their service that saves merchants money on the fees paid to accept credit cards. Their presentation was most informative, including testimonials from current customers.

After contacting my peers at community colleges and universities throughout the State who use the services of PE Systems, I was impressed with their comments. Not only were they pleased with the monthly savings being realized, but they appreciated the professionalism of the staff at PE Systems and the continuous follow-up to ensure maximum savings. They truly put forth great effort on behalf of their clients.

Hillsborough Community College is most pleased with the services of PE Systems. They have educated us on the processing of transactions to allow for maximum savings. PE Systems has been most diligent in recovering refunds for the College. We highly recommend their services. You will not be disappointed!

Sincerely,

Hillsborough Community College

Director of Financial Services
