

To Whom It May Concern:

I am writing this letter to share our experiences in working with PE Systems. We first heard of PE Systems through some of their mailings, which included references such as this, from others in a similar position as mine. After hearing of their service in more detail at a conference, I decided to give them an opportunity to serve Kellogg Community College.

From the onset of our relationship with PE Systems, I was extremely impressed with the depth of their knowledge relative to the niche that they serve. A risk-free analysis showed me how easy it would be to save my College significant dollars, as well as gave me a more thorough understanding of the industry. They uncovered the issues that were causing us to lose money and were able to negotiate a more favorable agreement with our bank and the College began saving immediately.

Since we became a PE Systems client, they have continued to diligently monitor certain transactions, changes in the structure of our modified agreement, notify of us overcharges, identify possible weaknesses in our system and even were able to obtain refunds/credits as a result of the above. Their service has not only saved us money, but we have saved valuable time and manpower. I would highly recommend any organization consult with PE Systems to see what they can do for you.

Sincerely,

KELLOGG COMMUNITY COLLEGE
