

To Whom It May Concern:

I am writing to share our experience with PE Systems. Linn Benton Community College contracted with PES to help us manage the fees that we were paying to accept credit cards. With all of our responsibilities we deal with on a daily basis, we were not looking to add another task that would require very much of our time or effort on our part. PE Systems guaranteed that not only would they not require much of our time, but they would also do all of the work for us.

We have been extremely satisfied with our relationship with PE Systems. Though they do all the work to uncover and fix the issues, we are able to stay in control of the process and still be able to be involved in the day to day management of our fees. Their suggestions have been researched and factual and they continue to educate us on the situations that were causing us to lose money. The credit card industry is extremely complex and I am so glad to have someone keeping a watchful eye on the fees that we are paying to accept credit cards.

I am very happy to recommend PE Systems to anyone looking to save money on credit card fees.

Sincerely yours,

Accounting Specialist
Linn-Benton Community College
