AMERICAN LEAGUE CHAMPIONS 1965

To Whom It May Concern:

The Minnesota Twins contracted the service of PE Systems in October of 2004 to review the fees that we were paying to accept credit cards. Honestly, it took us quite a while to make the decision to form a partnership with PE Systems. When we made the decision to move forward we sent PE Systems our last twelve months of statements and they promised to come back with in a few weeks with the results of their review.

I have to admit we were quite surprised by their findings. The numerous issues that they uncovered were in multiple areas of our processing structure and although we are very proactive in working with our processing fees, they brought problems to our attention that we had not been aware of. The team of experts at PE Systems truly takes the time to work each individual issue in order to ensure that our organization is processing in the manner that we should be. They are professional and efficient and they stay on top of each issue until it is fixed. We also chose to be very involved in the process and they are continually educating us on the reasoning behind each of the issues that were causing us to lose money.

I am virtually certain that PE Systems will identify savings for any company they work with. I highly recommend that anyone who accepts credit cards partner with PE Systems, sooner rather than later.
