

**To Whom It May Concern:**

**This letter is in regards to the services offered by PE Systems Corporation. We have been very appreciative of their assistance in monitoring and helping us to understand the ever changing fee structures, rules, and regulations of the credit card industry. We have realized cost savings through our partnership with them that otherwise would not have happened. They truly are the experts when it comes to deciphering the fees that we merchants pay for credit card processing. I highly recommend this service to anyone that would like to realize savings in their credit card processing structure.**

**Sincerely,**

**Assistant Controller  
Olivet Nazarene University**
