To Whom It May Concern:

This letter is in recommendation of PE Systems Corp and of the service that they provide. Ottawa University contracted with PE Systems to review the fees that we were paying to accept credit cards. In this day and age of more students and tighter budgets, we at Ottawa are very proactive in finding solutions that will result in a financial benefit for our school. PE Systems is one such solution. One of the most unique aspects of their service was that if they did not uncover, as well as fix, any problems in our processing structure, we owed them nothing. It almost sounded too good to be true!

Fortunately for us, this solution is very real. PE Systems identified the situations that were causing us to lose money. They educated us on the changes that we could make on our end that would save us money, and lastly they did all of the work for us to make these changes happen. Their in depth knowledge of the credit card industry has been an invaluable resource to us; they honestly provide one of the most beneficial services that we have seen. There is really no reason to not sign up with PE Systems and their team of experts today.

I highly recommend the service that PE Systems offers; I really believe that they are one of the few companies out there that offer a completely win-win service.

Sincerely,

Director of Finance / Controller
Ottawa University
