To Whom It May Concern:

I am just writing to extend my gratitude for the services provided by the team at PE Systems. Our relationship with them and the savings that they have provided us with have been extremely beneficial to our University, and the education that we have received from them has been extremely beneficial to our staff. With PE Systems help, we have gained knowledge of the credit card industry and the way that it effects the day to day decisions that we make for our school, in a way that we could never have done on our own.

I recommend the services of PE Systems to anyone that would like to not only save money on their credit card fees, but would also like to gain a greater understanding of them.
