

To Whom It May Concern:

The Seattle Seahawks engaged the services of PE Systems to analyze our processing systems and make recommendations regarding saving money on the fees we had been paying. We were highly impressed with their level of industry knowledge, and their dedication to their mission of uncovering savings for their clients. They provided us with solid knowledge and their consulting proved to be very effective in our recent negotiations in connection with bank card fees, thus resulting in a substantial cost savings.

We would definitely recommend them for any company looking into the possibility of paying less for credit card processing.

Sincerely,

Controller
